Linux Autumn 2018

(Jesień Linuksowa 2018)

Sponsorship Offer

On behalf of the Linux Autumn Organization Committee conference 2018 I have the pleasure of inviting you to cooperate in the organization of this year's edition of our event. I therefore encourage to become familiar with the sponsorship offer.

This year, we'll meet on Jesień Linuksowa conference for 16th time. To celebrate anniversary we are moving this year to Recreation and Training Center in Ustroń.

The Jesień Linuksowa remains the biggest meeting dedicated to Free Software and GNU/Linux in Poland among events organized by Polish Linux Users Group (PLUG).
This fact in especially motivates us to even harder work!

We intend to continue a good habit of arranging interesting talks from foreign speakers. Past years showed that such action raises the level of knowledge and prestige of the meeting. This causes more interest and also raises number of attendees.

Further development requires strong, reliable partners and sponsors, hence I am deeply convinced, that your participation in the Linux Autumn 2018 should bring countless notable benefits to both sides. Therefore I am wholeheartedly encouraging you to get acquainted with the offer we have prepared.

With kind regards,

Filip Kłębczyk
board member of Polish Linux Users Group (PLUG)
lead organizer of Linux Autumn

GENERAL INFORMATION

The Jesień Linuksowa 2018 is the 16th edition of the conference for Free Software and GNU/Linux enthusiasts, organized by Polish Linux Users Group (PLUG)

Time and venue

Linux Autumn (Jesień Linuksowa) 2018, November 9th-11th, 2018 r.; http://www.jesien.org/
Recreation and Training Center "GWAREK" - http://www.gwarek.ustron.pl/en.htm
The closest international airports are: Katowice (KTW), Cracow (KRK), Ostrava (OSR)

Mission and target

Acquiring qualifications, promoting best practices, integrating and exchanging experience among specialists and enthusiasts of GNU/Linux and related technologies. Affordable price of the conference, makes it attractive to both employees of companies/institutions as well as students.

Subject matter

The GNU/Linux and other Free Software and Open Source Software administration. System and network security, server and desktop projects, newest concepts, trends and technologies. Organizational and legal issues related to the Free Software. Exchange of ideas and experience, presentation of individual approaches to problems and ways of solving them.

Aims of the sponsoring support

Reimbursement of transport and accommodation costs for invited Special Guests. Additionally, costs of accreditation and promotion of the conference: gadgets attached to starter pack which every attendee receives upon registration at the hotel.

Support methods

1. Donation to the Polish Linux Users Group (PLUG) association. We can confirm the donation with an accounting certificate but not an invoice; or
2. Purchase of sponsoring or advertising service from the company co-organising the Jesień Linuksowa conference with PLUG. This is the right way to receive an invoice.
